

## Innovations in Practice, Education, and Research

A Multi-Dimensional Model of Care and Caring promoting Health and Well Being for All — An Empowerment Model of Interaction dedicated to improving Human and Planetary Health

Akamai University is committed to international peace, racial equality and spiritual health.

We foster a range of approaches for integration of body, emotion, mind, and spirit that consider the healthy interrelationships needed to unify the world working together rather than power and authority over other people or nations.

We work to promote racial equality by practicing it in our leadership from our headquarters in the United States. We have solid representation of residents

in the US and are actively seeking international representation throughout our system.

Akamai University offers core courses that require the different colleges and faculty to teach and grow together. We feel this approach will foster the understanding in students of the true meaning of *We Are All One*, and to understand the interrelatedness of the health of humans, plants, animals, communities, and nations.

International equality of race, religion and political views are to

be acknowledged if we are to survive. Leadership in the world must use the co-exist and collaboration model instead of war, power and ego based model. We believe the time is right, the time is now for self rule and self determination of each and all nations.

Our emphasis is we are One World and All Inter-Connected. Let us help each other do what is right for all not for a select few. This requires innovation on all levels to figure out solutions for global issues as we dedicate ourselves to improving human and planetary health. ■

## 2022 Master of Science Degree in Education & Master of Education Degree

## 2022 Master of Science Degree in Education & Master of Education Degree

Education is the ticket to multiple avenues to grow and change within and without. The worldwide challenges have forced us to reexamine the priorities in life and how to uplift society as a whole and that includes education at all levels from parenting, mentorship in a field of endeavor and discover of a life path to serve others while living a happy empowered life.

To achieve the goal of becoming an informed individual a range of educational process must be achieved to uplift the individual and society as a whole through creative educational models.

The future includes the following topics:

- Empowerment of the individual in life choices.
- Partnerships to identify and walking the path called life vs being manipulated by others to do what they want for you to do with your life rather than helping you discover your unique path.
- Changes in education are required to include efficiency, economic imperative, public demand, public satisfaction, safety, efficacy, access, ethics, humanitarian, and socio-religious-cultural perspectives as well as the usual criteria laid down for learners and educators.

At AU we are prepared to work with students to be on the cutting edge of innovation, expertise, and competency through this unique program to set the highest standards of practice, teaching and research in education to lead to way.

## Spotlight on Harvey Menden

Dr. Menden, PhD is an accomplished Human Resources leader focused on leveraging training, organizational development and change management capabilities to drive business outcomes. Using innovative approaches, proven methodologies and technologies

enables business leaders to actualize their strategies to exceed desired business goals and targets.

Harvey has been a major contributor to Akamai University over his many years of service in a variety of leadership capacities. Due to the recent promotion at his primary full-time job and additional community service projects, he has to step down from the board position and as Dean of Racial Equality College.

Harvey has committed to continue working with students and offering his wisdom to the board going forward as he can. From our hearts to yours Harvey, many thanks for your dedicated service, and scholarly contributions that capture the spiritual commitment of service to others.

Your energy remains as a focal point of innovation and inspiration to us as we go forward.

# FACING CHANGE

## 12 Resources To Guide You

Dr. Mary Jo Bullbrook, RN

President, Akamai University

# Akamai University

Dedicated to improving human and planetary health

Change is inevitable. We all know that. Of course, it is hard to accept and manage the demands required by the change no matter what the topic; personal, professional, organizational, cultural, racial, climate, environment, national, the world

Change can include health challenges, financial short falls, life challenges. So, take time to face the music. Stand before the orchestra and *direct the musicians to play with the instruments that now make up the band* that are part of playing the *new song needed* to be played with the *new musicians in the band* to address the *music* needed or wanted by those you are *playing for*.

Change has hit everyone, everywhere and on all fronts affecting *all*. So buckle up. Notice what the journey is to meet the change. In essence, face head on the physical, mental, heart and soul of CHANGE.

### Explore options

Weigh consequences of different roads to take. Decide and walk your path after calling on a Higher Power to accompany you on the journey.

## Here are 12 resources to call on to help you:

**1** Breathe and take in the coming CHANGE or CHANGE that is here.

**2** Pause for an appropriate amount of time to take in what is before you.

**3** Call on a Higher Power or Resource to guide and walk with you.

**4** Open your heart to examine what is important to you; it can map your course of action.

**5** Listen and speak to others either directly or through books, tapes, dialogue and or invisible clues that point to a direction.

**6** Open your portal of inspiration and visioning possibilities.

**7** Check in with Divine Inspiration that comes forward in many ways both direct and obvious and or indirect through subtle clues.

**8** Breathe and take in the coming CHANGE or CHANGE that is here.

**9** Start building possibilities and paths to explore.

**10** Breathe in again and let go of any doubt you will find a solution or solutions.

**11** Take one, two and three steps forward on the path of your choice.

**12** Examine the light that comes from those initial steps and choices to verify your direction to keep on going or not.
