

Dr. Gregory Pacific, PhD named as Acting President of Akamai University

Dr. Douglas Capogrossi, President
Emeritus of Akamai University on hand to
celebrate AU Graduates in Durham, NC
April 21, 2024

Greetings Akamai University Community and Friends,

Welcome to the newest edition of our newsletter.

At AU we are prepared to work with students to be on the cutting edge of innovation, expertise, and competency through unique programs to set the highest standards of practice, teaching, and research in education to lead the way.

We have many exciting programs happening around the university. I hope that you will take the time to investigate all that is going on and become active members of our growing university community.

Please feel free to reach out to me with any questions or just to say hello.

Very Respectfully,
Gregory Pacific, PhD
President, Akamai University

Outgoing Akamai University President Dr. Mary Jo Bulbrook

What an honor to serve as Akamai University's president from February 1, 2021 to April 25, 2024! So much to share over these three years in support of the transition of Akamai University from Hawaii to now North Carolina. All the changes are documented on the AU new website that I will continue to update <https://www.akamai.university>.

The details of achievements are all available to each of you on our new website which includes achieving and continuing our international accreditation as a Premier Accredited institution renewed 2022 to 2026. I have to admit it was a breath taking process to complete all the requirements required to continue that status for AU!

Also check out the new condensed websites that have key data easier to access without the full everything of everything so to speak. They are: Akamai University General Website: <https://akamaiuniversity.org> and the AU Satir Global Center site: <https://akamaiuniversity.education>. Personal highlight was the AU graduation held

Graduation Ceremony 2024

Akamai University Our Approach

The new model of Spiritual alignment for a Sustainable Future includes: Family, Equality, Peace, Partnership and Planet Health all inseparable aspects that are needed to interrelate. The logo was created by our board member, Suzanne Eismann who also was the person who designed all of our updated logos as well as major documents needing that "professional representation" Many thanks to her continual dedication in graphic design department including issuing our graduation degrees and professional papers guidance for faculty and students.

during the 9 day 3 organizations in person and online in NC launched under the Pathways to Health model to support Spiritual Alignment for a Sustainable Future. The focus of doing these together documented the unified perspective that models our clear approach of joining together with others dedication to improving the human condition vision and mission established by Dr. Douglass Capogrossi, AU founding president. Check out the pictures on the website as well as the recordings of our exciting dynamic introduction to the AU headquarters operation and home base if a relaxed nature supported environment part of a local community neighborhood that supports universal equality and connections of all. We received very positive feedback from those in attendance in person who identified with the cohesive and community connections for all.

Mary Jo
