Revised July 2021

Goal: The goal is to create a viable culturally or need specific program to address unique demands offering support, care and help to achieve peace within and without. The curriculum is individualized addressing the root cause to heal and achieve peace within and without.

Program Designer: Dr. Bulbrook is uniquely qualified to serve in this role due to her lifetime commitment as a dedicated university academic with over 50+ years in Higher Education. She is a master teacher / practitioner / educator with ground theory research.

All these pathways to health Dr. Bulbrook addressed during her extensive career blending integrative health and CAM Therapy to populations in need Including her work with Virginia Satir who promoted the term Peace Within, Peace Without, Peace Among.

Her journey includes offering expert knowledge, experience and skills teaching a range of energy therapies in multiple countries. These countries include Australia, New Zealand, Peru, Chile, South Africa, Canada and throughout the USA since 1976. She served in a significant role in the spread of HT in North America as well as the other countries from the original program that Janet Mentgen created.

Her training in Energy Medicine has been taught throughout the US and Canada, Australia, New Zealand, Peru, Chile and South Africa. This includes working with health care professionals in universities and hospital organizations alongside indigenous healers of those countries. Opportunities exist to teach the above programs for those who qualify and choose the pathway of their interest, experience, and training.

Program Requirements & Opportunities: These new pathways were spiritually conceived to serve a need for select populations. This need includes finding the right content to teach from the wealth of knowledge available, skilled instructors to teach, sound educational design that is monitored and evaluated to achieve the individualized educational goal and establishing an infrastructure to make the program viable, manageable, and affordable. The training is based on Dr. Bulbrook Model Program titled: Person to Person theory of education. Scholarships available. Flexible scheduling & monthly payments.
