### New Opportunity for Healers

Written by Mary Jo Bulbrook  
Wednesday, 09 June 2021 00:00

Energy Medicine Partnerships has partnered with the Institute for Complementary and Alternative Medicine associated with Akamai University - online training worldwide. It also has expanded the opportunity to become a Certified Specialist in Energy Medicine, Energy Psychology and / or Energy Kinesiology for healers and practitioners from other disciplines such as Healing Touch, Touch For Health and Reiki to name a few.

Also starting in 2018 the Advanced Development of the Healer Series on the third Monday from 5 to 6:30 pm. Check the events to see the schedule.

As the demand for qualified practitioners in Energy Medicine, Energy Psychology and Energy Kinesiology has increased with the recent advances in research and in traditional health care, energy medicine training will provide practitioners with additional credentials for the new roles in health and healing.

Opportunity exists to receive academic credit for the above through Akamai University. Energy Medicine Partnerships is an affiliate program with AU.

In addition to the EM Specialist training there will be Mentorship Group experience to support healers in their developmental process.

See the [Mentorship Group Flyer](#) for details what this entails. Opportunity exists to receive university credit for these as well.

Dr. Bulbrook is Dean of Complementary and Alternative Medicine Program at Akamai University.

Call for details. 919 923.2409.

Check out the events to see what is possible and description of the Specialist training program.
