April, 2023

Dear Alumni,

The Akamai University Board of Directors is excited to communicate with you regarding updates from your Alma Mater. Our current newsletter highlights the new board and significant changes you will want to see including renewal of our international accreditation! [Click here to view.](#)

Much has happened over the last couple of years that has placed our institution in the spotlight highlighting our faculty and students practice, education and research collaborating worldwide.

In appreciation, the AU Board of Directors is offering a mentoring experience from one of them to let you know we care about you still as an active “family member” of AU. Their skill set is outlined on the web site to choose from a 30 minute session to address your needs for information, support or help. Make a donation of your choice. [Send an email request for a mentoring session.](#)

In addition, AU President Dr. Mary Jo Bulbrook’s an expert in energy therapies is conducting a drawing to win a private healing session valued of \$250 to help student recruitment. *Make a small donation of \$5, \$10 or larger to enter the contest!*

Lastly, since “Earth Day is Every Day” the College of Planetary Health is sponsoring a crowdfunding effort to expand AU’s worldwide contributions. Every donation helps! Access here [gofundme.com](https://www.gofundme.com) Search: Akamai University

These three fund raising efforts from the heart are tax deductible to ensure “Paying it forward” to the next generation of students while honoring Alumni generosity! HELP BUILD THE FUTURE!

Respectfully Submitted,

Donate Options: Send check to AU Headquarters or
