The picture with Virginia was taken in Seattle during their time together in planning the first Satir training with Virginia's new model to launch her worldwide training. Mary Jo served on the founding board of the Virginia Satir International Teaching Network originally called Avanta. The training was held in Park City Utah in 1981.

The Triad Model of Care established by Virginia was launched throughout Utah with 19 workshops offered in Utah, one week meeting of the newly established teaching network, three weeks process community after three weeks training of the evolving Satir community lead teachers.

Dr. Bulbrook accomplished this through the University of Utah where she was director of the graduate program in Psychosocial Nursing. She then brought Virginia to Memorial University in St. John's Newfoundland Canada. These offerings set the stage for the growth of Virginia's dream to create a School for Becoming More Fully Human. Next, she was visiting professor at Edith Cowan University in Perth, Western Australia launching the combined training of Satir with nursing and energy medicine. Three films are still available from those original training films.

Dr. Bulbrook blended the Satir Change Process with integrative holistic health and CAM Therapy to populations in need. Virginia who promoted the term Peace Within, Peace Without, Peace Among with the blue flame drawing, originated from Mary Jo's personal / professional tenure with Virginia. This symbol is one of the founding signatures of Virginia's work that The Virginia Satir Global Network.

From this base, Mary Jo continued this blended teaching worldwide which has been taught throughout US and Canada, Australia, New Zealand, Peru, Chile, and South Africa. Includes working with health care professionals in universities and hospital organizations alongside indigenous healers.
