

SPIRITUAL Care Teams

Akamai University
College of Continuing Education
Energy Medicine Partnerships

Dear Friends of EMP and Akamai University,

The inspiration for Care Teams for Energy Medicine Practitioners and Instructors was developed in 2008. The concept for Care Teams has evolved in 2014 to be Spiritual Care Teams with the purpose of renewing our spirit at every stage of our lives!

I am fully aware that what I want for myself is to be cared for by my friends. Those who believe in the same things I do — not to be primarily cared for by a health care professional who is not schooled in the value of Energy Medicine. I realized I do not just want to HOPE someone will step up to the plate to help me. I want to take some action!

I personally am dedicated to the call to spiritual service. Do consider participating in a Spiritual Care Team.

Mission: Provides direct service using energy based care, love and support — including physical, emotional, mental, spiritual crisis, disaster or trauma relief, animal rescue, end of life needs, focused intention setting and prayer teams.

Philosophy: EMP-AU Spiritual Care Teams are designed to offer unique energy based care supporting each other in the time of need. This care supplements traditional health care and family care.

Our Spiritual Care Team participants are committed to provide care depending on their ability to do so at any point in time. Consequently when a request comes we will work to find those who are available to provide the requested care.
